Engine Baudouin 6M16G350/5	Alternator Stamford S4L1D-E41	Model GFE350BSC (Canopied)				
50Hz	1500rpm	3-Phase	Power Factor (ssions I/A
Ratings	Prime Power		Standby Power (ESP)		Rated current	Fuel consumption
Voltage	(PR	,	· · ·		Amps	@100% load
					/ A \	1.0
(V)	kWe	kVA	kWe	kVA	(A)	L/h
(V) 400/230	256	320	280	350	(A) 462	L/h 70.5
	256 All three phase gene		280 at 0.8 power factor	350 or.		
400/230	256 All three phase gene	320 erator sets are rated a	280 at 0.8 power factor	350 or.		

The above ratings are in accordance with ISO8528-1 and ISO3046-1. Standard reference conditions: 25°C, 100m A.S.L., 30% relative humidity.

utility power failure. No overload is permitted on these ratings.

There is no limitation to the annual hours of operation and this model can supply

This rating is applicable for supplying electrical power (at variable load) in the event of a

10% overload power for 1 hour in 12 hours.

Remark:

"Ensure a quieter life with our sound attenuation system."

Extremely rugged and highly corrosion resistant construction

Sound-attenuated or open option

Features

Compatible with 2000/14/EC directives, certified noise emission level
2 or 4 point lifting for transport according to cabin size with certain models also including fork pockets
Hidden exhaust inside the canopy with weather flap to the exterior
Emergency stop button located on the canopy

Improved air suction channel to ensure homogenous cooling in the canopy

Filler Lid on top of canopy for radiator and antifreeze top up

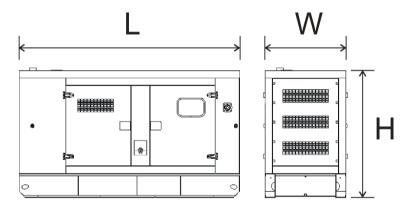

Power coated paint system protecting against corrosion and rust

Improved sound insulation performance

Demounted parts for easier transportation and maintenance

Overall dimensions, weight and noise

GFE Automatic Transfer Switch

A.T.S - 4 Poles

We offer as an optional accessory, not only a changeover switch but also an integrated mains detection and switch system for your 24 hour power protection. The system enables automatic start-up and operation of the generating set in the event of a mains power failure, overvoltage or loss of a mains automatic retransfer once it comes back.

System advantages

Automatically transfer and re-transfer load from main power to gen-power without operator intervention (both automatic and manual)

ATS Controller (AMF function)

Available from 32 - 4000A

Available in standard, bypass isolation and service-entrance configurations

Configurable in open, closed and programmed transition operating modes

Designed to interface seamlessly with all AMF generators and switchgear

Drip proof IP42 enclosure

Easy installation: wall-mounted and floor standing

Warranty coverage

Generators used with commercial utility source: From One (1) to Two (2) years. Please see our Warranty Terms and Conditions of sale.
